EXPERIENCE

Founder and CEO

June 2018 – Present

Forest Finery (<https://www.forestfinery.com/>)

Windsor, ON

- Founded a clothing brand that plants **20** trees for every item purchased making it an eco-friendly brand
- Designed a website component using JavaScript which has been used by over **10,000** unique users and **500+** sales resulting in a plantation of over **5,600** trees
- Connected using **Google Analytics** and **Facebook Pixel** to gain various insight on the website, such as daily insight, audience information and potential customers

PROJECTS

Discord Voting Bot | (🌐/Discord-Voting-BOT)

- Developed a Discord bot for Raidboss Gaming, a gaming community on discord with more than **1,500** people using **Python** and **Discord.py**
- BOT has **4 main features** which are to vote on maps, vote to bring more people into admin, vote to remove a person from our private games and to clear a chat
- Defines and changes user access depending on the given role to the user

Bicycle Website Redesign | (🌐/Bicycle-World-Redesign)

- Redesigned a 5-page website for a local bicycle shop using **HTML**, **CSS**, **Bootstrap** and **PHP**
- Incorporated **Google Maps** and **PDF files** into the website to make it easier for the user to navigate to local bike trails
- Deployed the website on Netlify by connecting the GitHub repository

Personal Website | (🌐/Personal-Website)

- Leveraged **HTML**, **CSS**, **Bootstrap**, **Vanta.js** to design an intuitive, modern website
- Developed the back end of my personal website using **PHP** and **PHPMailer** to add the contact form functionality
- Deployed the website on Netlify with a custom domain by connecting the GitHub repository
